Dear Mr. President, Madam Speaker, Mr. McConnell, Mr. McCarthy, Mr. Schumer, and Mr. Secretary:

On Sunday, May, 2020 we are announcing the creation of America's Recovery Fund Coalition, a group of over 100 organizations advocating for a grant-based federal assistance program to power the resilience of American enterprise. America's Recovery Fund Coalition includes members representing more than 30 business sectors that together employ 58 million Americans and comprising more than 45 percent of the private workforce.

The economic shutdown due to COVID-19 has resulted in an unprecedented financial loss to American businesses and workers, with estimates placing the cost of an eight-week shutdown as high as \$4.3 trillion in annual revenue. More than 30 million Americans have lost their jobs in just six weeks, and without further recovery funding, the Congressional Budget Office predicts national unemployment will stay above 10 percent well into 2021. U.S. GDP shrank 4.8 percent in the first quarter of the year. Behind these staggering numbers are families and entire communities at risk of losing their livelihoods as a result of COVID-19 and insufficient federal support.

With state and local governments planning to relax social distancing rules in the coming weeks, local businesses need a streamlined recovery fund to provide the medium-term capital to safely reopen – and stay open – as they emerge from lockdown and the American economy gets back up to speed.

Existing programs like the Paycheck Protection Program were a well-intentioned effort to help defray the impact of the COVID-19 economic crisis, but we must build upon the current options and address the overwhelming need for additional capital support to businesses. A broad-based, efficient recovery fund that does not pick winners and losers is the best path forward. Without such a fund, our retailers, theatres, restaurants, and many other industries will be decimated – and our communities will be poorer both economically and culturally as a result.

America's Recovery Fund Coalition believes Congress must urgently create a federal direct assistance fund to provide rapid liquidity to businesses impaired by the COVID-19 national emergency. We believe the fund should be designed to help businesses maintain ongoing capital obligations during the prolonged crisis and the next months of economic healing, enabling employees to continue receiving pay, maintain benefits, and help employers rehire former employees while workplaces get back on their feet and safely reopen to the public.

The Coalition is currently discussing the fund concept with Congress and would urge your support to ensure America's strong recovery.

Sincerely,
